

Dear Professor,

The Department of Nuclear and Quantum Engineering in KAIST (Korea) is now searching for good faculty candidates in the following research fields.

- 1) Nuclear Chemical Engineering (any research field including Nuclear Fuel Cycle, Radioactive Waste Management, Decontamination & Decommissioning, etc.)
- 2) Health Physics (any research field including Radiation Biology, Medical Physics, etc.)
- 3) Other Research Fields related to Nuclear Engineering and Radiation Science & Technology

If you know anyone who is eligible for the faculty position, could you please recommend him/her to me ? Korean citizenship is not necessary.

Best wishes and thanks for your help in advance,

Sung Oh Cho
